Fort Wayne, IN – (June 10, 2013) – Greg Wheeler suffered a fracture to his C4 vertebrae in a crash on Saturday night during a non-sanctioned sprint car program Saturday night at Butler Motor Speedway. Wheeler had a successful surgery today to put on a halo and will see a lengthy recovery. Wheeler's wife Sue would like to express her and Greg's appreciation for the support for the entire racing community and the safety crew at Butler Motor Speedway for the great care they gave Greg at the accident scene.

Well wishes for Wheeler can be sent to 1757 East Brookside Trail, Columbia City, IN 46725.
