

2016 Sprints On Dirt Schedule Taking Shape

The dust is barely settling from the 2015 racing season, but Sprints On Dirt is racing full-speed into the future. On September 4th, SOD announced their innovative, new unlimited sprint format, and now the 2016 schedule is taking shape. SOD is pleased to announce its Michigan promoter partners have all confirmed the same number of shows for 2016. Generally all dates have been set, however a few could change as tracks continue to finalize all of their 2016 events. Specific dates and special events will be released later. Now SOD is turning its attention to scheduling additional shows in Michigan as well as shows in Ohio and Indiana.

Sprints On Dirt will be going into its 37th season and is recognized as an innovative leader in sprint car racing and the premier sprint car series in the Great Lakes area. At its inception, SOD originally had no engine restrictions. Later it evolved with the sport of sprint car racing into a 410 group. Then in 1997, it transitioned into a 360 group. Now SOD is leading the way into the next evolution of sprint car racing as unlimited sprints.
