

COLD WEATHER WILL NOT STOP CRYSTAL!

> > > *ATTENTION SOD RACERS* < < <

Saturday's opening race at Crystal **WILL NOT BE CANCELED DUE TO COLD WEATHER**. Due to pending cold temperatures, the entire program will be run as quickly as possible. After SOD preliminary events are completed, one or two Crystal classes will run preliminary events to allow SOD competitors time to prepare for our feature. The SOD feature will then be run as soon as possible. Please be prepared to race with very little down time.

Engine Pro Sprints On Dirt presented by ARP thanks Crystal Motor Speedway personnel for doing everything they can to ensure an exciting, successful show under less than optimal circumstances.
